

Anil Sha

Sr. Software Developer | Full Stack Developer

Email: anilk89100@gmail.com

Location: Bauria, Howrah, West Bengal - 711310, India

Mobile: +91 9883535635 / +91 8910088950

Address: Fort Gloster 'B' Block L/N-11 R/N-365

SUMMARY

- Senior Software Developer with over 7 years of experience in full-stack web and mobile application development. Proven expertise across Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Project Management, and scalable Web/Mobile solutions. Proficient in object-oriented programming, database design, stored procedures, RESTful APIs, and modern JavaScript/PHP frameworks including React.js, React Native, Next.js, Node.js, Laravel, and CodeIgniter. Experienced in leading development teams, architecting database solutions, and integrating enterprise third-party services and payment gateways.

CORE COMPETENCIES

- Full Stack Development · Enterprise Resource Planning (ERP) · Customer Relationship Management (CRM) · Database Design & Optimization · RESTful API Integration · Mobile App Development · Technical Team Leadership · Biometric & IoT Hardware Integration · Real-Time WebSocket Applications · Dynamic PDF & Excel Reporting · Payment Gateway Integration · Multi-Tenant System Architecture

PROFESSIONAL EXPERIENCE

- **Softthought** Kolkata, West Bengal, India
Sr. Software Developer 06/2019 – Present
 - Led full-stack development and team execution across 10+ enterprise web and cross-platform mobile applications, delivering projects on schedule with 99.9% uptime.
 - Architected high-performance database schemas, stored procedures, and triggers in MySQL and SQLite, optimizing complex query execution times by up to 40%.
 - Engineered secure RESTful APIs and orchestrated SAP integrations with biometric IoT hardware (Hikvision), streamlining data pipelines for 500+ active workforce personnel.
 - Integrated IDfy document verification services and 4 major payment gateways (CCAvenue, Easebuzz, Billdesk, EazyPay), ensuring seamless, high-concurrency transaction processing.
 - Spearheaded agile development sprints, assigned module responsibilities, and performed rigorous code reviews, accelerating feature deployment rates by 25%.

SELECTED PROJECTS

- **CWMS (Client Workman Management System)**
 - **Scope & Responsibilities:** Full stack developer for an end-to-end workforce management system covering employee registration, biometric attendance capture, requisition/approval workflows, and worker assignments.
 - **Technical Implementation:** Integrated Laravel RESTful APIs with Hikvision IoT biometric hardware for 500+ active personnel and automated dynamic Excel/PDF attendance compliance reports.
 - **Tech Stack:** React.js (Material UI), Laravel, MySQL, REST APIs
- **Mukti (Yoga Package & Health Management Platform)**
 - **Scope & Responsibilities:** Full stack developer for a multi-tenant platform managing patient registrations, package plans, yoga sessions, consultant prescriptions, and counselor records.
 - **Technical Implementation:** Architected multi-tenant database schemas and orchestrated real-time event broadcasting using WebSockets and Laravel Reverb with Material UI components.
 - **Tech Stack:** React.js (Material UI), WebSockets, Laravel, MySQL (Multi-Tenant)
- **Tea Samrat (Enterprise Back-Office Application)**
 - **Scope & Responsibilities:** Designed database structures, implemented core modules, and performed developer-level testing for a comprehensive tea purchasing and sales back-office software.
 - **Technical Implementation:** Modernized CodeIgniter 3 architecture across 6 modules (tea purchasing, blending, packaging, sales, inventory, accounting). Refactored 15+ stored procedures and server-side DataTables pagination.
 - **Tech Stack:** PHP, CodeIgniter, MySQL (Stored Procedures), jQuery, mPDF, DataTables

- **Payroll System**
 - **Scope & Responsibilities:** Frontend developer in a 2-person team building a complete payroll management system.
 - **Technical Implementation:** Constructed intuitive interfaces for employee registration, salary processing, attendance-based calculations, deductions, allowances, payslip generation, and payroll reports.
 - **Tech Stack:** React.js (Material UI), Node.js, MySQL
- **Tennis Association & Club Management System**
 - **Scope & Responsibilities:** Frontend and database developer managing membership, admissions, and administrative operations for sports associations and social clubs.
 - **Technical Implementation:** Built player registration, tournament scheduling, match scoring, and receipt management workflows. Integrated restaurant, bar, accounts, inventory, member portal, and Jasper Reports.
 - **Tech Stack:** React.js (Ant Design), Node.js, CodeIgniter, MySQL, Jasper Reports, Payment Gateways
- **Matrix (Angel Investing CRM)**
 - **Scope & Responsibilities:** Designed database and coded key CRM modules for managing angel investors and startup databases.
 - **Technical Implementation:** Implemented investor tracking, business conversion metrics, Mailchimp analytics dashboard, automated invoicing, data migration from MANT app, and role/action-based access control.
 - **Tech Stack:** PHP, CodeIgniter / Laravel, MySQL, jQuery, Mailchimp API
- **E-Commerce & Enterprise Web Portals (FruitsnRoots, School & Guest House Systems)**
 - **Scope & Implementation:** Architected and deployed e-commerce platforms for plants/fertilizers, school management systems (students, classes, attendance), and corporate guest house booking systems with double-booking prevention and approval flows.
 - **Tech Stack:** PHP, Laravel, CodeIgniter, MySQL, jQuery, mPDF
- **Mobile App Development (CINI Education & CINI Health)**
 - **Scope & Implementation:** Spearheaded mobile application development for NGO child education monitoring (tracking academic assessments and learning gaps) and maternal/infant healthcare tracking (pregnancy records and vaccination schedule reminders).
 - **Tech Stack:** React Native / Android, CodeIgniter Backend, MySQL

EDUCATION

- **The Calcutta Anglo Gujarati College** Kolkata, West Bengal
Bachelor of Computer Applications (BCA) 08/2015 – 06/2018

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript (ES6+), TypeScript, SQL
- **Frontend & UI:** React.js, React Native, Next.js, jQuery, Material UI, Ant Design, Bootstrap, Tailwind CSS, HTML5, CSS3
- **Backend Frameworks:** Laravel, CodeIgniter (3.x), Node.js, Express.js
- **Databases & RDBMS:** MySQL (Triggers, Stored Procedures), SQLite, MariaDB
- **Web Servers & Infrastructure:** Apache, Nginx, Docker, Linux (Ubuntu), Git
- **Tools & Technologies:** RESTful APIs, WebSockets, Jasper Reports, mPDF, JWT, Postman, Composer, npm, Vite
- **Integrations & Services:** CCAvenue, Easebuzz, EazyPay, Billdesk, IDfy, SAP Integration

LANGUAGES

- English, Hindi, Bengali
